# WHO WE ARE

Broadway Group was formed in 2021 to bring together Broadway Engineering and AVPE systems.

Creating a diversified aerospace manufacturing group with extensive capabilities and customers in civil, defence, production, and aftermarket market sectors.

The Group has deep engineering expertise, comprehensive machining facilities and specialist capabilities including thread rolling, heat treatment and NDT.

Broadway Group remains a private, family owned business with a track record of long-term, sustainable growth, and has an ambitious long-term strategy.

# WHAT IS ENGINEERING?

## **Jobs that make a difference!**

Engineers are creative and hands-on and have the ability to transform the lives of billions of people with their skills.

Engineers solve problems, design and create things.

## **Engineering is for everyone!**

You don't need to be top of your class for Maths and Science!

If you like to solve problems, or enjoy modifying, fixing or even inventing new things then engineering could be for you.

There are lots of different types of engineering to choose from. Almost anything you can think of will have some sort of engineering behind it.

# GETTING IN TO ENGINEERING

## SCHOOL

Useful subjects include science, maths, DT & computing

## SIXTH FORM/FE

A Levels / T Levels /  
HNC / HND /  
Foundation Degree

## UNIVERSITY DEGREE

Bachelors (BEng/Bsc)  
Masters (MEng)

## APPRENTICESHIPS

At all levels,  
including  
Degree/Graduate

## WORK

Professional  
registration

# WHAT IS AN APPRENTICESHIP?

Apprenticeships give you the opportunity to earn money while you learn and are a great alternative to more traditional learning methods.

Being an apprentice isn't the same as being a college or university student.

You won't just study and gain new knowledge as an apprentice, you'll be putting what you learn straight into practice. Apprentices don't have to pay tuition fees either.

Apprenticeships are available at all levels. You will be employed by us meaning that you will be earning whilst learning!

At the end of your apprenticeship you will complete an End Point Assessment (EPA)

# WHAT'S IN IT FOR ME?

## Earning good money

Not only will you earn whilst completing your apprenticeship, but engineers can generally expect to earn more over their lifetime than other graduate subjects.

The chances of finding and retaining employment are good. The future is bright for Engineers!

You will receive plenty of support from the organisation and your dedicated tutors.

You will receive the same benefits as other employees.

You can be any age once you've reached 16. There is no upper age limit.

**No student debt!**

# APPLYING

You must be 16 or over to apply for an apprenticeship.

Apprenticeships will usually start inline with new term times and we will begin to recruit from around March.

You will generally need at least Grade 4 in Maths, English and a Science related subject.

We can provide additional support should you need to complete a Functional Skills upgrade.

Applications should be made via BEMA

The logo consists of a stylized 'B' formed by two overlapping shapes: a white '3' on the left and a grey '5' on the right. To the right of this icon, the word 'Broadway' is written in a bold, white, sans-serif font, and the word 'Group' is written below it in a smaller, grey, sans-serif font.
